Creating Vehicle Requests

Overview

Vehicle requisitions, including additions, replacements, donations and leases, are submitted, reviewed, and approved using the State of Georgia Forms in VITAL Insights. The process has three levels of review—agency, Office of Fleet Management (OFM) and Office and Planning and Budget (OPB).

There are two types of vehicle requests—an addition to the fleet and a replacement for an existing vehicle in inventory.

Process Overview

The VR process goes through at least four submittal levels:

- Agency requestor
  - Completes the initial request and provides new/replacement vehicle information, vendor information
- Agency approval process
  - Every agency has at least one person who approves the acquisition of the vehicle and ensures that all necessary agency procedures have been followed for acceptance and payment of the vehicle.
- OFM approval
  - After the VR has cleared the agency approval level, the Office of Fleet Management ensures that the agency has met fleet policy requirements.
- OPB approval
  - Finally, OPB reviews the request to ensure adequate funding and justification for the purchase.

Required Information

In order to complete the vehicle request, the following information will be required:

- Type of vehicle request—replacement or addition
  - If replacement, state-id of vehicle that will be replaced
- Desired vehicle information (year, make, model, fuel type, alternative fuel vehicle, GVW)
- Assigned status of new vehicle
- Statewide contract, if applicable
- Vendor information (address and contact information)
- Intended use of the vehicle
- Justification for vehicle purchase including maintenance cost of replacement vehicles
- Budget program information (this information can be obtained from agency budget officials)

7. **Click Save VR Line.**
8. **Modify Vehicle Request**

Once one vehicle request line is created, the requestor can modify an existing vehicle request by editing a VR line, adding additional vehicle requests or deleting the VR Line.

- To add a new vehicle request with the same vendor but different vehicle information
  - Click **Add VR Line**
  - Repeat Steps 4-7 to add vehicles to the request
- To duplicate a vehicle request, including the vehicle, justification, EPACT and Charge To information for additional vehicles. (See graphic below)
  - Select the existing VR Line that you want duplicated.
  - Click **Copy VR Line** and all the information for the selected VR will be populated for a different VR line.
    - Once created, you can make changes to the new VR line once created by clicking **Edit VR Line**, **Delete VR Line**.
- To edit a VR Line
  - Click **Edit VR Line**
  - Click **Edit VR Line** and make desired modifications
- To delete a VR Line
  - Click **Delete VR Line** and all information for the VR Line is removed from the vehicle requests.

9. **Once you have completed the vehicle requests and all lines, you can click:**
   - **Save** – saves changes made to the VR
Submit To Approve – sends the vehicle request to next level approver
  - An email will be sent to the next level approver
Cancel VR – ends the VR so that it cannot be edited or approved
Exit – closes the Vehicle Request Form window and opens the Search Vehicle Requests window that contains the vehicle requests in your inbox.

10. To monitor the VR through the approval process:
   - Click on the Vehicle Requests Search Menu
   - The vehicle request should be listed in the second half of the window. If not, in the Status box, select All Statuses and all vehicle requests for your agency should be listed.
     - The listing the vehicle request can be sorted like other listing pages in VITAL Insights by clicking on the column heading (click once for ascending order, click twice for descending order).
