

File Sharing

The File Sharing on the Employer Web site facilitates file sharing of ad hoc reports between HRA and your agency. The 'File Sharing' functionality is available to Agency Users and HRA Users. Users will be able to upload/download files. When uploading/downloading to FileShare, the Agency User can specify who they want to share the file with. Files uploaded/downloaded for Basic Users will also be visible to Agency Administrator Users. Files loaded for an Administrator will not be visible to Basic Users.

This page will display the five most recent files. All 'Unread' files will be shown in 'Red' and all 'Read' files will be shown in 'black'. The list of files will be sorted in the descending order of 'Date Posted'. Each of the following column headers will be a link which will allow the user to sort the list on the basis of selected column header:

- Date Posted
- File Title
- File Size
- File Type
- Expiration Date

Archiving Files

The 'Archive Files' button allows users to move reports to an 'Archived' view. The user can click on 'View Archived Files' link to see the list of archived files. The user can also restore the archived files back to the default view by selecting a file and then clicking the 'Restore Archived files' button.

The Expiration date is the date after which the file will not be available through the Web site Web user interface. The user will specify this date when uploading a file.

The Search Files feature will allow the user to search files based on a given criterion. The search will be done within the files which are available in the default view. Files which have been archived will not be part of the search results. The search criterion can consist of the following fields:

- File Title
- Date Posted Range (From—To)
- Agency ID – The Agency ID will be the one which the user specified after logging in to the Web site.

If multiple search criteria are provided (e.g., title and date range) then the audit log activities will be searched by applying 'AND' between the fields.

If the only field specified is the 'From' date, then the search will be done between the user given 'From' date and the system (today's) date. Correspondingly, if the only field specified is the 'To' date then the search is conducted among all the activities performed before or on the 'To' date.

The 'Change Expiration Date' button on the 'Your Files' page will allow the user to change the expiration date of the selected file. But, the expiration can not be more than twelve months from the date of upload. For a given file, only the user who has uploaded the file can change the expiration date.
