**Find a provider near you.** The provider locator tool lets you locate the most convenient network ophthalmologist or optometrist for you and your family. You can search for the provider nearest your home or office, and find locations offering features such as wheelchair access, additional languages spoken, driving directions or weekend office hours. If you don't see your provider, you can nominate them via the online form and UnitedHealthcare will make every attempt to contact them. Click "Provider Locator."

**Check claims.** You can view vision claims by date and determine claim status, all in real time and up-to-the-minute. You may also download an out-of-network claim form, and check the status of out-of-network reimbursements. Click "In-Network, Out-of-Network Claims or Out-of-Network Claim Form."

**Learn more about your coverage.** Better utilize and understand your benefits by viewing plan details — check your current eligibility, copays, allowances, covered lens options and out-of-pocket costs. Click "My Benefits."

**Print an ID card.** Thanks to our convenient paperless benefits and claims, you do not need a member ID card to use your benefits. However, if you'd like one, you can easily print one. Click "My Benefits." You can also save it to your computer or smartphone.
