

Resolution Steps

1. Completely shut down your computer and restart.
2. Open Google Chrome and type 'Chrome://flags' in address bar.
3. Search for 'SameSite'.
4. Enable the 2 options (SameSite by default cookies & Cookies without SameSite must be secure).
5. Relaunch the browser to apply the changes.

6. Clear browsing history Open Google Chrome > Go to Settings > History > History
7. Check 3 boxes (Browsing History, Cookies and other site data, Cached images and files) and click on 'Clear Data'
8. Close browser and reopen. Restart your requisition.
