

DOAS Loss Control Bulletin

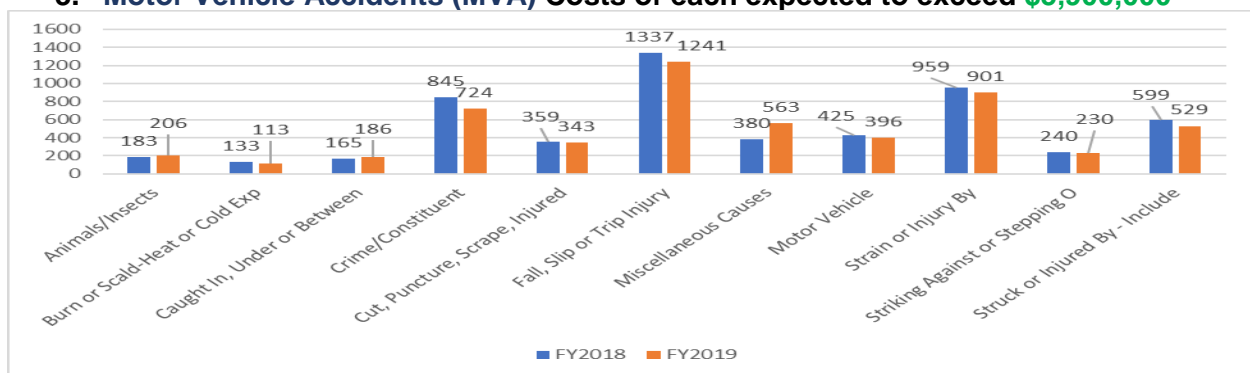

Topic of the Month...FY2019 Injury Review

Fiscal Year 2019 ended on June 30, 2019. During FY2019, 5,432 (4.43%) fellow State of Georgia employees were injured. Of those, 1,374 (25.2%) were injured severely enough to lose a week of work. All these injuries will end up costing the State of Georgia over \$58,000,000. We saw a three percent **Decrease** in injuries overall in FY2019. Fall, Slip, Trip was still the leading cause of injury with 23% of our total injuries. We had a 1% decrease in Falls, Slip, Trips.

Please take this opportunity to review your three leading causes of injury and put plans in place to conduct training on those topics in FY2020. Based on the chart above most agencies should be completing the following Safety National Insurance LMS Courses:

1. **Falls, Slip, Trip**; FY2019 Injury Costs expected to exceed **\$15,000,000**
2. **Strains & Sprains** or Back Injury Prevention Costs expected to exceed **\$12,000,000**
3. **Motor Vehicle Accidents (MVA)** Costs of each expected to exceed **\$5,900,000**

THANK YOU! For your efforts to reduce injuries. One method to address the wide array of injuries the State of Georgia is a good Please see our training presentation for more information. If we can help you with your Safety training, please contact us at losscontrol@doas.ga.gov.

Thanks for your time. Let's work together to make Georgia a safer place to work.
