Re: Audit of inactive NIGP code use – purchase orders (POs) issued in July 2023

Audit Summary

National Institute of Governmental Purchasing (NIGP) codes are a universal taxonomy for identifying commodities and services in procurement systems. The State of Georgia uses the NIGP five-digit item code as a commodity code to classify products and services on POs.

For Team Georgia Marketplace™ (TGM) entities, there were \$182,892 in PO lines where inactive NIGP codes were used. For University System of Georgia (USG) entities, there were \$165,151 in PO lines, where inactive NIGP codes were used.

Audit Objectives

1. Determine how many PO lines had an inactive NIGP code.
2. Determine which state entities issued PO lines with an inactive NIGP code.

The audit scope and methodology used in this audit are summarized in **Appendix A**.

Inactive NIGP codes

For TGM entities, 10 of the 231 NIGP codes classified as inactive were used. Inactive NIGP codes were used on 30 PO lines on 18 POs. These PO lines totaled \$182,892. The top three inactive NIGP codes totaled \$172,833 or 94.5% of the POs with inactive NIGP codes. These codes are summarized in **Table 1**. These codes became inactive effective January 1, 2016. Most inactive codes reference the active code, which should be used in the code’s description. NIGP code 91885, for example, references NIGP code 91865 in its description, as seen below.

NIGP Code	Description
918	CONSULTING SERVICES
91885	Personnel and Employment Consulting, Human Resources (Inactive, please see commodity code 918-65 effective January 1, 2016)

Source: DOAS website (<https://ssl.doas.state.ga.us/gpr/loadNigpSearch>)

The active codes referenced are shown in blue font in **Table 1**.

**Table 1
Top Inactive NIGP Codes by
PO Amount (TGM) July 2023**

Inactive NIGP Code	Inactive NIGP Code Description (NIGP active code referenced)	PO Amount	Percent	Number of PO lines
96114	Commissioning of Facilities Service, Functional and Prefunctional (No active code is referenced) (a)	\$125,561	69%	2
57830	Disaster Survival Equipment, Kits, and Supplies (25735)	\$42,657	23%	1
96111	Chartering Services, other than services Included in 96113 (No active code is referenced) (b)	\$4,615	3%	3

Source: PeopleSoft query TGM_oEPO019D_PO_SPEND_BY_DATE

Notes:

- (a) Inactive NIGP code 96114 does not suggest an alternative. Upon review of the active codes, 91113, “C.I.P., Commissioning” is an appropriate alternative.
- (b) Inactive NIGP code 96113 does not suggest an alternative. Upon review of the active codes and the PO, it appears that the buyer meant to use 96611, “Card Printing: Tab, Post, Form, etc.”

For USG entities, 7 of the 231 NIGP codes classified as inactive were used. Inactive NIGP codes were used on 23 PO lines on 8 POs. These PO lines totaled \$165,151. The top three inactive codes totaled \$164,385, or 99.5% of the PO lines with inactive NIGP codes. Most inactive codes reference the active code, which should be used in the code’s description. The active codes referenced are shown in blue font in **Table 2**.

**Table 2
Top Inactive NIGP Codes by
PO Amount (USG) July 2023**

Inactive NIGP Code	Inactive NIGP Code Description (NIGP active code referenced)	PO Amount	Percent	Number of PO lines
96216	Bus Transportation Services, School (96113)	\$158,538	96%	14
88515	Algae and Microbe Control Chemicals, Copper Sulfate, etc. (88516)	\$4,430	3%	2
66532	Envelopes, Plastic and Poly. (31031)	\$1,417	1%	1

Recommendations

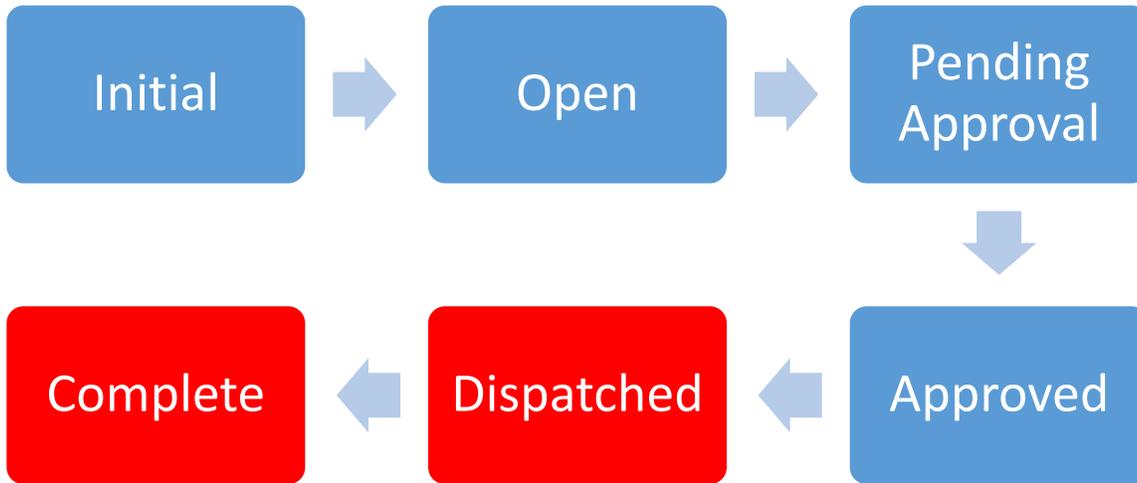

1. SPD should work with the appropriate IT support staff from DOAS, the State Accounting Office, and USG to remove inactive NIGP codes from the financial systems so inactive codes cannot be used on POs.
2. SPD should provide a crosswalk from all inactive codes to the respective active codes that should be used.
3. APOs/CUPOs should review PO data from this audit at the buyer level to ensure that staff is adequately trained and, where necessary, re-trained in using NIGP codes on POs. SPD should also consider offering a stand-alone course on NIGP code use for buyers, requestors, approvers, and APOs/CUPOs.

Appendix A

Audit Scope and Methodology

August 31, 2023
Page 1 of 1

This audit is of purchase orders (POs) issued in July 2023 - POs with PO dates between July 1, 2023, through July 31, 2023. The PO dates were when the PO queries were run in August 2023. The PO queries come from different financial systems. Except for the Georgia Institute of Technology, which uses Workday, all other audited state entities use PeopleSoft for their financial system. It is not the same instance of PeopleSoft since each instance is configured differently. The objective of the audit was to audit POs issued or dispatched. Since the PO queries are run from different financial systems, the terminology used to indicate the PO status or the life cycle for POs varies. For TGM entities, the PO life cycle consists of the following steps:

Only those POs in the stage of dispatched or complete were included in this audit. Phases, before dispatched, represent the internal approval process a state entity uses before the PO is sent to the supplier. For TGM entities, this is known as dispatched. Complete is the status used when the PO is closed and can no longer be modified or used.
