Table of Contents

Executive Summary	4
Focus Areas	6
Programs and Scope of Services	9
System-wide Overview	
Item 1	System-wide Employee Record Characteristics at Fiscal Year End 16
Item 2	FYE 2022 System-Wide Employee Records by Government Segment, Branch, and Entity Category 17
Item 3	FYE 2022 System-Wide Employee Records by Government Segment and Record Category 17
Item 4	System-wide Employee Records at Fiscal Year End with Record Category 18
Item 5	System-Wide Calculated Turnover Rate by Fiscal Year with Separation Type (Active, Full-Time, Non-Temporary, Primary Records only) 18
Executive Branch: Summaries and Entity Details	
Item 6	FYE 2022 Executive Branch Employee Records by Record Category 20
Item 7	FYE 2022 Executive Branch Employee Records by Record Category by Entity 21
Item 8	Executive Branch Headcount Profile by Fiscal Year 23
Item 9	Executive Branch Employee Records Profile by Fiscal Year (Active, Full-Time, Non-Temporary, Primary Records only) 25
Item 10	FY 2022 Executive Branch Headcount by Job Family by Record Category 26
Item 11	FY 2022 Executive Branch Headcount by Job Family with Compensation Rates 27
Item 12	FY 2022 Executive Branch Headcount by Classification with Age and Tenure Summary 27
Item 13	FY 2022 Executive Branch Retirement Eligibility (Active, Full-Time, Non-Temporary, Primary Records only) 28
Item 14	FY 2022 Executive Branch Full Retirement Eligibility by Entity (Active, Full-Time, Non-Temporary, Primary Records only) 29
Item 15	FY 2022 Executive Branch Early Retirement Eligibility by Entity (Active, Full-Time, Non-Temporary, Primary Records only) 31
Item 16	FY 2022 Executive Branch Employee Records by Generation by Record Category 33
Item 17	FY 2022 Executive Branch Headcount by Tenure Groupings by Record Category 34
Executive Branch: Talent Acquisition	
Item 18	Executive Branch Hiring by Hire Type by Fiscal Year (All Records) 36
Item 19	Executive Branch Hiring by Hire Type by Fiscal Year (Active, Full-Time, Non-Temporary, Primary Records only) 36
Item 20	FY 2022 Executive Branch Hires Proportion by Generation (Active, Full-Time, Non-Temporary, Primary Records only) 37
Item 21	FY 2022 Executive Branch Hires Proportion by Gender (Active, Full-Time, Non-Temporary, Primary Records only) 37
Item 22	FY 2022 Executive Branch Hires Proportion by Ethnicity (Active, Full-Time, Non-Temporary, Primary Records only) 38

Item 23	FY 2022 Executive Branch Hires Proportion by Reported Highest Education Level (Active, Full-Time, Non-Temporary, Primary Records only)	39
---------	--	----

Executive Branch: Separations

Item 24	FYE 2022 Executive Branch Record Longitudinal Retention by Entity (Active, Full-Time, Non-Temporary, Primary Records only)	41
Item 25	FY 2022 Executive Branch Record Longitudinal Retention within Entity by Entity (Active, Full-Time, Non-Temporary, Primary Records Only)	43
Item 26	FY 2021 and FY 2022 Executive Branch Hire Retention by Hiring Period (Active, Full-Time, Non-Temporary, Primary Records only)	45
Item 27	FY 2022 Executive Branch Separations Proportion by Separation Type by Record Category	46
Item 28	FY 2022 Executive Branch Separations Proportion by Tenure Groupings (Active, Full-Time, Non-Temporary, Primary Records only)	47
Item 29	FY 2022 Executive Branch Separations Proportion by Generation (Active, Full-Time, Non-Temporary, Primary Records only)	48
Item 30	FY 2022 Executive Branch Voluntary Separations Proportion by Generation (Active, Full-Time, Non-Temporary, Primary Records only)	48
Item 31	Executive Branch Enterprise Longitudinal Retention by Generation (Active, Full-Time, Non-Temporary, Primary Records only)	49
Item 32	Executive Branch Entity Longitudinal Retention by Generation (Active, Full-Time, Non-Temporary, Primary Records only)	49
Item 33	Executive Branch Voluntary Turnover Rate by Generation by Fiscal Year (Active, Full-Time, Non-Temporary, Primary Records only)	50
Item 34	Item 34.	
Item 34	FY 2022 Executive Branch Hires and Separations Comparison by Job Family (All Records)	51
Item 35	FY 2022 Executive Branch Hires and Separations Comparison by Job Family (Active, Full-Time, Non-Temporary, Primary Records only)	52
Item 36	FY 2022 Executive Branch Hires and Separations Comparison by Selected Job Codes (All Records)	53
Item 37	FY 2022 Executive Branch Hires and Separations Comparison by Selected Job Codes (Active, Full-Time, Non-Temporary, Primary Records only)	54
Item 38	FY 2022 Executive Branch Separations by Separation Type by Entity (All Records)	55
Item 39	FY 2022 Executive Branch Separations by Type by Entity (Active, Full-Time, Non-Temporary, Primary Records only)	57
Item 40	FY 2022 Executive Branch Turnover Rate Calculation by Entity (Active, Full-Time, Non-Temporary, Primary Records only)	59

Talent Acquisition Tool

Item 41	Team Georgia Careers Active Entities Using by Fiscal Year	62

Flexible Benefits

Item 44	Flexible Benefits Enrollment Summary (Open Enrollment for Plan Year 2022)	65
Item 45	Flexible Benefits Enrollment by Plan Option (Open Enrollment for Plan Year 2022)	65

Appendix

Item 46	Hires by Fiscal Year	67
Item 47	Hire Median Annual Compensation Rate by Fiscal Year	67
Item 48	Separations by Fiscal Year	68
Item 49	Voluntary Separations by Fiscal Year	68
Item 50	Involuntary Separations by Fiscal Year	69
Item 51	Retirements by Fiscal Year	69
Item 52	System-wide Average Tenure at Separation by Separation Type by Fiscal Year (All Records)	70
Item 53	Executive Branch Average Tenure at Separation by Separation Type by Fiscal Year (All Records)	70
Item 54	Executive Branch Average Tenure at Separation by Separation Type by Fiscal Year (Active, Full-Time, Non-Temporary, Primary Records only)	71
Item 55	FY 2022 System-Wide Voluntary and Involuntary Separations by Termination Code	72
Item 56	Termination Reason Code to Separation Type Reference Table	73

Executive Summary

In the Fiscal Year (FY) 2022 (July 1, 2021–June 30, 2022), state employers continued to face major challenges in recruiting, hiring, and retaining quality talent.

The executive branch employee population continued to decrease, further complicating these challenges. According to the 2020 census, Georgia's population grew by 14.4%. However, its executive branch's total employee population dropped by 15.2% over the same 10-year period. Again in FY22, there was a reduction of 1,039 employees within the executive branch.

While the FY22 workforce analysis shows some improvement in attracting new hires, the state experienced another year of record-high turnover. According to the Society of Human Resources Management (SHRM), consistent high turnover can result in service delivery challenges, lost productivity, and reduced employee morale.

In response to the significant concerns with recruitment and retention identified in the FY21 report, DOAS HRA created a partnership with the Department of Education, the Technical College System of Georgia, the University System of Georgia, and the Carl Vinson Institute of Government with support from the Governor's Office of Planning and Budget to address talent needs across the enterprise. These organizations formed a one-of-a-kind partnership, the Workforce Strategies Initiative (WSI), to build talent pipelines in key occupational areas of entry post-certified law enforcement, information technology, social services, accounting, and procurement. In addition, WSI will replicate learnings from these groups to address additional job categories and create enterprise solutions to improve recruitment for all state jobs. The five key areas were selected based on the number of employees within the jobs, the number of agencies with employees in the category, turnover rates, and location across the state.

The system-wide FY22 staffing gap (number of hires minus number of terminations) was 1,891 more separations than hires, compared to 3,345 in FY21. However, staffing gaps remain due to record-high turnover. To address retention difficulties, DOAS HRA is conducting an enterprise-wide assessment to better understand why employees are leaving and develop recommendations based on the findings, focusing on the five groups included in the WSI due to the higher turnover rates in those categories. The retention study is critical because specific reasons for the high turnover remain largely unknown, as agencies continue to code 78% of terminations as simply "Resignation" rather than using one of the 51 separation codes that provide much more detail.

Improvements to technology to capture such details will promote better data analytics and support recruitment and retention. In FY22, the State Accounting Office, the DOAS, and the Georgia Technology Authority initiated the Next Generation Enterprise Resource Planning (ERP) Project (NextGen), which will transform how the state operates in the areas of human resources, learning management, financials, and procurement. NextGen will directly support state employers recruiting and retention efforts by improving data collection for reporting and analytics, expanding recruiting options, improving onboarding, decreasing hiring time, reducing administrative tasks, and delivering learning management content that will increase retention.

To address recruiting and retention, in FY22, the Governor and state legislature provided a \$5,000 salary increase to eligible state employees. Due to the salary increase, the median executive branch starting salary rose to \$34,185, up 10% over FY21, and the median salary rose to \$44,637, up 15% from FY21.

The salary increase was also supplemented with improvements to the state's pension benefits. With the salary increase and benefit improvements taking place in the final months of FY22, the impact on hiring and turnover will be analyzed in the FY23 workforce report.

Complimenting the salary increases and work described above, some state agencies initiated proactive recruitment strategies in FY22. For example, some agencies increased their attendance at job fairs, hosted on-site hiring events, and developed social media recruitment campaigns. To support these efforts, DOAS HRA provided enterprise-wide recruiting advertising, campus visits, digital billboard advertising, social media campaigns, mass transit advertising, and radio advertising. Improvements in attracting new hires in FY22 may be attributed to these efforts.

Notes:

This report primarily provides a snapshot of the state's workforce at the end of FY22 or items that happened through the course of the fiscal year. Previous fiscal year periods are included in some instances to offer additional context. The first section of the report shows a basic overview of all state entities and branches of government, with several following sections focusing on only executive branch entities as maintained within the TeamWorks Human Capital Management (HCM) platform. The TeamWorks HCM system does not cover the Georgia World Congress Center, the Board of Regents (BOR) or its university system units, and several other smaller entities and authorities that do not use the state's enterprise human resources information system (HRIS).

Later portions of the report highlight other programs and systems that HRA maintains as part of its program offerings, and those data sources will be identified.

Focus Areas

Staffing

Compared to FY21, there has been a reduction of 713 full-time employees in FY22. This downward trend over the past 10 years has resulted in a decrease of 12,099 full-time employees. Additionally, the state is attracting fewer candidates for employment as the number of applicants fell to an all-time low in FY22. In February 2022, the average number of job applications per vacancy announcement was only 11.

However, the state has shown the ability to attract the younger generations. Gen Y, also known as millennials (age 25-41), represented 54% of hires in FY22. Over the last five years, Gen Y has been the majority, averaging 57% of total hires. Gen Z (age 24 and younger), the youngest generation in the state's workforce, represented 13% of FY22 hires. As expected, Gen Z hires have increased yearly, with the generation entering the workforce in higher numbers. In FY18, when the first Gen Z was 20 years old, they represented just over 2% of total hires. Gen Y and Z combined account for over 67% of total FY22 hires.

HRA Recommendations

State employers should continue to make efforts to improve the overall candidate experience in the hiring and onboarding process. Shortening the recruiting cycle is key to attracting and hiring talent, and state employers should establish metrics to measure recruiting efforts and use them to make informed, data-driven decisions. In addition, recruiting and onboarding should be as paperless as possible, as younger generations expect easy electronic processes when applying for employment. The NextGen system will meet this expectation as it will provide an integrated approach to talent management where candidates and employers will use one system to complete recruiting and onboarding activities.

Providing candidates with timely feedback, dedicating staff to the recruiting function, and investing in educating recruiting staff will help streamline and enhance the candidate's employment experience. State employers should also optimize the recruiting process by discontinuing paper employment applications, creating attractive and informative job postings, and building social media recruiting campaigns. Agencies should utilize these strategies to increase their ability to attract and hire the next generation of qualified talent.

HRA has established social media campaigns that state employers may use as a model for their recruiting efforts. Additionally, HRA is available to provide consultation to state employers to customize ways to shorten the time to fill positions through process improvement, including leveraging current enterprise technology.

To better attract talent, the state should consider modifying the minimum qualifications for certain positions by removing college degree/certification requirements and allowing an applicant's experience to be a substitute for a degree/certification. According to SHRM, since July 2018, nine in ten employers report being ready to accept candidates without four-year college degrees to fill positions in an increasingly tight labor market.

According to the U.S. Census Bureau, only 28.3% of Georgians over the age of 25 have a bachelor's degree or higher. Thus, changing the college degree requirements for select jobs should have a significant impact on the state's recruiting efforts. By taking this action, the state would expand career opportunities for applicants and employees who have developed their skills through alternative routes such as military service, apprenticeships, technical college, and/or on-the-job training.

Turnover

The state's general turnover rate is at another all-time high, exceeding 25% for the first time. Moreover, the FY22 turnover peak follows a six-year trend, measuring over 20%. In comparison, the turnover rate for all full-time executive branch agency employees is 29.2%. This suggests that essential business operations may be at higher risk of experiencing poor service delivery driven by staffing shortages.

The most significant turnover metric is among the state's youngest workers. Gen Y/millennials (age 25-41) and Gen Z (age 24 and younger) are leaving state employment quickly and in significant numbers. The FY22 turnover rate was 28.3% for millennials and 47.3 % for Gen Z. Gen Z turnover was down markedly, from 76% in FY21 to 47% in FY22. This is the first decrease since FY17 when Gen Z turnover was first measured. HRA is investigating the reasons for this decrease.

HRA Recommendations

To keep younger workers engaged, agencies should intentionally focus on career development experiences by implementing mentorship and leadership development programs. This may require creating unique developmental opportunities for younger workers to accelerate their growth and promotion readiness. Such actions could be supplemented by supporting the earning of professional certifications and providing additional education and training. For the modern workforce, employee development can be used as an important retention tool.

Retention

Every organization must attract and retain the youngest generations to remain relevant. Gen Y/millennials and Gen Z represent over 67% of all hires within the state workforce. However, retaining the youngest generations has been a significant challenge for state employers.

HRA Recommendations

Each agency should develop, implement, and communicate a robust initiative for upward mobility, along with a performance management program that includes clear and concise goals, frequent conversations with supervisors, individual development plans, and career paths to align with the expectations of Gen Y/millennial and Gen Z.

Recent research shows that front-line supervisors significantly impact employee motivation, engagement, and retention. The modern workplace demands a greater emphasis on front-line supervisors operating in more of a "coaching" capacity vs. the traditional "command and control" management style. Development activities or programs that may be offered or provided to front-line supervisors are often ad hoc, sporadic, or too brief to sufficiently build the knowledge and skills necessary to be effective in today's rapidly changing modern workplace. These are a few factors that highlight how important it is for state employers to ensure they make meaningful and consistent investments in the development of their front-line supervisors.

It is also important for state employers to prioritize identifying high-potential employees and implement development programs that prepare them for future front-line supervisor roles.

These efforts combined will help the state of Georgia build a "coaching culture" focused on managing, developing, and retaining the state of Georgia's talent.

Retirements

Large portions of the retirement plan-eligible executive branch employee population are eligible for full retirement. 7% may retire immediately, with an additional 2% within one year. Approximately 20% of the retirement plan-eligible executive branch employee population may enter full retirement in less than five years.

When early retirement is considered, the percentage of retirement plan-eligible employees who may retire immediately rises to 10.6%, and the number who may retire within one-year increases to 13%. Just under 25% of retirement plan-eligible employees may retire early in less than five years.

While retirement eligibility continues to climb, the percentage of eligible employees who retire has not increased over the last five years.

Eleven executive branch employers are vulnerable to immediate experience drain, with over 30% of their population eligible for full retirement within the following year. Fifteen executive branch employers have workforces, with 20%-29% of employees eligible for total retirement.

HRA Recommendations

To prepare for the departure of experienced employees, agencies should initiate succession planning and knowledge transfer initiatives, which would identify impacted jobs most critical to their strategic plans. Agencies should determine if a potential internal talent pool exists to fill those roles and create individual development and readiness plans to train and transfer knowledge to such talent within the given timeframe. Where internal talent is not available or ready, the timing and budget planning for recruiting and hiring replacements should be a priority to secure business continuity.

Programs and Scope of Services

DOAS Human Resources Administration provides resources and services to assist agencies in developing a modern workforce ready to meet the challenges of now and the future.

Policy and Compliance

State Personnel Board / Policy Compliance Support

The state operates under a framework of uniform human resources policies and practices that support compliance with employment laws and regulations and promote effective talent management. The HRA Policy and Compliance team works with the State Personnel Board (SPB) to establish the majority of this framework within a series of SPB rules. The Board rules apply to those entities that fall within the definition of “department” or “agency” in O.C.G.A. § 45-20-2(6) – generally the executive branch of the state, except for the BOR and state authorities. In addition, other guidance is issued in the form of statewide policies – often jointly with partner enterprise agencies. The human resources guidelines established by the SPB rules and other statewide policies provide guidance for a variety of human resources management areas, including developing internal processes for hiring and recruiting, absence management, classification, compensation, performance management, substance abuse testing, recordkeeping, veterans’ preference, classified employee requirements, the medical and physical exam program (MAPEP), teleworking, overtime, and sexual harassment prevention. Each agency has the discretion to tailor its internal human resources policies and practices to fit its culture and other business needs, provided the provisions fall within the statewide framework.

The Policy and Compliance unit offers consultation and resources to support compliance with the SPB rules (including the SPB’s MAPEP rules), other statewide policies, and federal employment laws such as the Family and Medical Leave Act of 1993, the Americans with Disabilities Act of 1990, as amended; the Fair Labor Standards Act of 1938; and the Title VII of the Civil Rights Act of 1964 (Equal Employment Opportunity) as well as statewide initiatives including the Statewide Sexual Harassment Prevention Program and Human Trafficking Awareness. In accordance with Executive Order 01.14.19.02, the HRA Policy and Compliance unit adopted a joint statewide policy with the Office of the State Inspector General to implement the Statewide Sexual Harassment Prevention Program and developed sexual harassment prevention training for executive branch employees and managers/supervisors. Ongoing work includes collecting a report of Sexual Harassment Prevention training numbers annually and updating the training and statewide policy as necessary.

To assist in assessing and improving compliance with state and federal rules, regulations, and laws, the Policy and Compliance team completes a human resources assessment of randomly selected state entities each fiscal year as provided for in O.C.G.A. § 45-20-1(6). The selected state entities are provided best practices and individualized meetings to review assessment findings and identify areas of improvement.

Reduction in Force

HRAs Policy and Compliance unit also review agency reduction in force plans. In accordance with SPB Rule 4, *Reduction in Force*, the Policy and Compliance unit reviews submitted plans for compliance with the rule’s requirements and provides consultation to agencies on adverse impact and other legal risks of a reduction in force. The unit then submits the plans to the Governor’s Office of Planning and Budget for a fiscal review of available funds and approval.

Substance Abuse Testing Program

The Policy and Compliance unit additionally manages the Statewide Substance Abuse Testing Program. The Substance Abuse Testing Program is governed by SPB Rule 21 and subrules 21A-H as well as the U.S. Department of Transportation Regulations for Workplace Drug and Alcohol Testing Program, the Federal Motor Carrier Safety Administration's Substance Abuse Program for Drivers of Commercial Motor Vehicles, the Federal Transit Administration's Prevention of Alcohol Misuse and Prohibited Drug Use in Transit Operations, and the United States Coast Guard Rules for the Safe Operation of Vessels and Safety Management Systems. In addition to providing compliance support, the unit manages the state's third-party administrator of substance abuse testing (currently First Hospital d/b/a First Source Solutions). In accordance with O.C.G.A. § 45-20-90, et seq. and O.C.G.A. § 45-20-100, et seq., the Policy and Compliance team works with state entities to determine the positions and groups of positions that regularly perform high-risk work where inattention to duty or errors in judgment while on duty have the potential for significant risk of harm to the employee or others. DOAS is further tasked with establishing and maintaining a list of laboratories and collection sites qualified to conduct drug tests which the Policy and Compliance unit posts monthly on the DOAS HRA website. In addition to training on substance abuse testing generally (such as training on the use of on-site drug testing collections), the Policy and Compliance unit provides training programs on its website, which help agencies with complying with U.S. Department of Transportation requirements for supervisor training on reasonable suspicion.

Employee Complaint Resolution Procedure

Pursuant to SPB Rule 20, *Employee Complaint Resolution Procedure*, the Policy and Compliance unit collects reports on an annual basis from each executive branch entity subject to the SPB rules information reflecting the number, nature, and disposition of employee complaints filed.

Talent Acquisition

Team Georgia Careers

The Talent Acquisition unit focuses on providing tools and solutions to assist state entities in attracting, selecting, and hiring a talented workforce under the directive provided in O.C.G.A. § 45-20-1 to provide a system of personnel administration that will "attract, select, and retain the best employees based on merit." In addition to providing the Team Georgia Careers (TGC) fully automated statewide talent management/applicant tracking solution, the Talent Acquisition unit provides guidance and tools for performance management processes and practices.

The TGC applicant tracking system (Taleo) provides a platform where state entities can utilize a common employment application form and integrated tools (including substance abuse testing) to screen applicants with minimum and preferred job qualifications consistent with the Statewide Job Classification System. The TGC applicant tracking system allows state recruiters and hiring managers to accomplish the entire selection process in a "touchless" manner when using it in conjunction with the TeamWorks HCM system (PeopleSoft), in which minimal data entry is required to hire a candidate. In FY20, over 82 agencies used TGC to recruit and select applicants. Agencies posted 10,791 job vacancies, 2,176,143 applicants viewed TGC, and 424,320 applied to agency job vacancy announcements. This means TGC provided an average of 40 applicants per job opening for agencies to select and hire from at no additional cost to the agency.

The Talent Acquisition Support unit has also developed a university relations program to promote the state of Georgia as an employer of choice. The team has partnered with ten colleges and universities

throughout the state to advertise career opportunities, participate in career-related events (industry nights, panel discussions, resume reviews, mock interviews, senior academies, etc.), and serves as brand ambassadors on campus when they are not available. The team also provides consulting services to agencies looking to build their campus presence and/or develop internship programs.

Talent Acquisition Resources

In addition to management of the TGC platform, the Talent Acquisition unit provides the following resources to assist with the recruitment and hiring of talented candidates: Onboarding process template; exit interview process template; I-9 employment verification training; exit interview template; new employee orientation checklist; new employee announcement template; new employee greeting sample; staff biography template; veterans' preference decision tree; sample recruitment and pre-offer screening process steps; and guidelines for Team Georgia careers functions.

Performance Management

In the area of performance development, the Talent Acquisition team provides support, guidance, and tools to state entities on the use of the ePerformance Tool and compliance with SPB Rule 14, *Performance Management*, and the State of Georgia's Core Competencies. A performance management toolkit is also provided that equips agencies with forms, templates, job aids, and e-learning materials for the performance evaluation process.

Compensation

Classification and Compensation Services

In accordance with O.C.G.A. § 45-20-1(c), it is the responsibility of the Compensation unit to establish and maintain the state's job classification and compensation structure and, in consultation with agencies, establish state-wide criteria for the implementation of associated rules and policies. The Compensation team maintains and updates the state's classification system, including the state salary plans and job descriptions grouped into 18 occupational families, which are used to classify agency positions into the appropriate jobs. Position-specific information is maintained at the agency level. Each occupational family has a separate job code catalog which identifies broad, generic information about each classification that is used as reference documents for the job codes, job titles, job summaries, and entry qualifications and pay grades entered into the TeamWorks HCM system (also known as PeopleSoft). Additionally, the Compensation unit is responsible for assigning new positions to appropriate jobs within the classification plan and periodically assessing the classification of positions for consistency across agencies. The unit ensures that affected agencies of any requested changes of established criteria are first surveyed and notified of changes and that PeopleSoft and the job code catalogs are updated.

Faithful Service Award Program

The Compensation unit also manages the Faithful Service Award program, which the Georgia General Assembly established to help attract and retain employees by recognizing their service to the citizen of Georgia. Through this program, approximately 13,000 state employees are recognized annually, beginning with five years of total service and then every five years thereafter. Employees completing 10, 20, 25, 30, 35 and 40 years of service receive a service award certificate and lapel pin. Employees with 5, 15 and over 40 years of service receive an award certificate. The Compensation unit ensures that award certificates and pins are distributed each month to state employees through their agency's human resources offices. HRA works with Georgia Correction Industries (GCI) to process initial orders for the certificates and pins each month. GCI produces and sends the certificates and pins to the employing

agency for distribution to the eligible employee. If a request for certificate reprints is received, HRA reprints the certificates and sends them to the employing agency. As part of the management of the program, the Compensation unit ensures that GCI has the necessary supplies each month for processing the requests, including certificate paper, certificate cardstock, and pins, and places orders with supply vendors as necessary.

Georgia State Charitable Contributions Program

The Georgia State Charitable Contributions Program (GASCCP) also falls within the Compensation unit's responsibilities, with the compensation manager overseeing the program as of the 2nd quarter of 2021. The GASCCP culminates in a charitable giving two-month campaign each year in the Fall that allows the state of Georgia employees to make contributions to a charity of their choice from a list of vetted and approved independent charities and federations through reoccurring payroll deductions or one-time donations. More than 140,000 state and Board of Regent employees are eligible to participate. Each year the HRA team accepts electronic applications from individual charities and federations to participate in the program and vets each applicant against criteria for participation provided in O.C.G.A. § 45-20-50, et seq. Pursuant to state law, the SPB must approve the list each year. HRA approves the annual operating budget and administrative duties of the program and manages the third-party vendor (currently America's Charities) that is used to host the charitable giving platform through which an employee selects the contribution amount and the charity or federation to provide the contributions.

The BOR utilizes a separate platform for their employees to pledge. HRA supports the GASCCP coordinators that run the campaign for their agencies by providing training and tools to encourage employee participation and answering questions about how to participate. HRA also meets weekly/bi-weekly (depending on the program phase) with the vendor to ensure the award process for agencies that meet the campaign's winning criteria and coordinator recognition are completed (plaques, certificates, and letters), to ensure agency GASCCP coordinator information is up to date, to provide platform requirements (theme, campaign dates, other updates) and to complete other necessary administrative tasks including ensuring eligible employee HR/payroll (including PeopleSoft) census files are up to date and submitted timely to the vendor for employee setup purposes in the portal, the pledge files are provided back to the agencies for the payroll deductions, and review and approval of program materials. The vendor also provides reports, manages the monies collected, and distributes them according to a formula based on employee selections and program costs at the end of each quarter for the campaign.

Your Total Rewards

The Compensation unit also manages the Your Total Rewards program, as of January 1, 2021, which provides employee awareness about the total compensation and rewards they receive from a combination of direct compensation and the value of indirect compensation, which includes the state's benefits, retirement, work-life options, and development and career opportunities. The Your Total Rewards program is currently available to TeamWorks agencies only. The Your Total Rewards e-statement is accessible with the state's GaBreeze Benefit Center (which also houses the flexible benefits plan eligibility and enrollment platform and Retirement System of Georgia platform).

Benefits

The Benefits unit administers various programs designed to recruit and retain employees to help create a total rewards package, including the Flexible Benefits Program, the Employee Assistance Program (EAP), the Employee Discount Program, and the Employee Purchasing Program.

Flexible Benefits / Employee Benefit Plan Council

The Flexible Benefits Program, on behalf of the Employee Benefit Plan Council, offers fourteen (14) separate benefits to state employees, public schoolteachers, and public school system employees pursuant to O.C.G.A. § 45-18-50, et seq. The benefits offered include dental, vision, life insurance, short- and long-term disability, specified illness, long-term care, legal services, and flexible spending accounts. The Flexible Benefits team presents contract renewals, requests to release RFPs and award contracts, open enrollment statistics, and recommended plan changes to the Employee Benefit Plan Council for their consideration and review throughout the year. The Flexible Benefits unit utilizes a third-party enrollment and eligibility vendor to provide a platform (“GaBreeze”) for eligible participants to enroll in benefits and modify benefit elections, including when qualifying events occur. Alight posts reports and file layouts for the reports on their employer website. The services provided by Alight include: administration of the eligibility rules; processing of enrollment events; reporting of enrollment and premium totals (transferring data / file interfaces between the state’s PeopleSoft TeamWorks system for payroll deductions and other “manual” systems); provision of a Benefits Call Center for flexible benefits users; acts as the COBRA (Consolidated Omnibus Budget Reconciliation Act) administrator for the Flexible Benefits Program (handling the provision of applicable notices, eligibility, and direct billing for COBRA participants; initiates billing process for other direct bill participants such as those on protected leaves of absence; financial manager services reporting and support; provision of an employer website for online reporting tools; provision of Your Total Rewards information; emails or mails communications on behalf of HRA or the flexible benefits providers; assists with updating the flexible benefits plan documents; and maintains data relating to the program; and provides compliance and government reporting support including HIPAA. When a participant’s appeal of an action relating to their flexible benefit participation cannot be handled by Alight, it is escalated to the HRA team, who have a formal appeal process to consider each circumstance and ensure consistency in results. The Flex team also works each open enrollment to ensure the contracts with the individual flexible benefits providers are renewed, and any changes to the services or fees associated are updated with Alight, and within the open enrollment materials, including the You Decide Guide, the website, and the benefits fairs (in-person/virtual). Furthermore, throughout the year, various updates or changes to the flexible benefits plan arise due to Federal law changes or relief (such as the COVID-related relief implemented under the CARES Act and the American Recovery Plan Act). The Flexible Benefits team also works with DOAS Legal to review and approve Power of Attorney requests for flexible benefit plan participants. Annual stewardship meetings are held with the flexible benefits vendors as part of the vendor management process.

Employee Assistance Program

The Benefits team also holds responsibility for managing the Employee Assistance Program, which provides professional, confidential support services and information for a variety of life areas, including family issues, workplace issues, stress management, parenting, anxiety, aging, relationships, grief, alcohol/drugs, depression, and abuse. The vendor KEPRO holds the current contract and provides a website through which employees may search for available services and make requests. Per State Personnel Board Rule 30, the program managed by HRA is optional for entities to participate in, with the cost being provided on a per-employee headcount basis with three different tier levels of services. The Flexible Benefits team manages the vendor’s performance, including quarterly meetings to review aggregate utilization reports and serve as a conduit between the participating entities and the vendor. Each year in May, the Benefits team notifies the agencies about the annual contract renewal/join process for the upcoming fiscal year, beginning July 1, and responds to agency questions about the

renewal process, which can be done anytime throughout the year. Most agencies renew effective July 1 each year.

Employee Discount Program

The Benefits team reviews requests to offer state employees discounts and provides an application and policy to which the participating companies must adhere to for participation. If a discount is approved to be offered, then information relating to that discount is hosted on the Team Georgia website's discount page.

Employee Purchasing Program

Pursuant to O.C.G.A. §45-7-56, the Benefits unit has managed the Employee Purchasing Program, under which employees are provided the opportunity to purchase consumer products through payroll deductions. This program was established by a house bill during the 2015 legislative session. The Benefits unit manages the vendor, currently Purchasing Power, with annual meetings to review the usage of the program and to review requests by the vendor for modifications to the program. In addition, the Benefits team coordinates three annual marketing campaigns between Purchasing Power and Alight to produce and mail postcards/flyers to a subset of employees.

Marketing/Communications

HRA uses MailChimp to send out mass emails to agencies for the various programs described above. HRA uses Oracle CRM to manage the email lists used for the emails. MailChimp provides metrics and handles the "unsubscribe" feature mass emails require. Each program works with HRA Marketing/Communication to update website content in ARC, DOAS, Team Georgia, and Team Georgia Careers. Each quarter HRA produces the HRA Horizons newsletter. Beginning in June 2021, a new quarterly newsletter, The Benefits Advantage, was published. Both newsletters are intended to provide guidance and raise awareness of HRA programs, compliance, and industry trends. In addition, HRA creates and distributes advisories as needed. In FY22, HRA will supplement the standard communication methods, like websites, emails, and community meetings with podcasts, and increase its social media presence through marketing campaigns.
