Re: Audit of Emergency Purchase Orders (POs) issued by Team Georgia Marketplace™ and University System of Georgia entities in the months of September and October 2025

Audit Objectives

1. Was an emergency purchase required?
2. Was the emergency justification form (SPD-NI004) completed?

Background

In accordance with O.C.G.A. §50-5-71, SPD has granted the authority to state entities to purchase urgently needed items during emergencies. Emergency purchases shall be limited to those supplies, services, or items necessary to respond to the emergency. Emergency purchases are governed by Section 1.3.5. of the Georgia Procurement Manual (GPM).

Audit Summary

SPD Audits identified 18 POs totaling \$2.7 million classified as an emergency in the months of September and October 2025. Of the 18 POs audited, all 18 POs totaling \$2.7 million were under the purview of the DOAS. The 18 POs were issued by 9 different state entities. The four state entities that issued the highest value of emergency POs from September and October 2025 accounted for 87% of all emergency POs and are summarized in **Table 1**.

Table 1
Top 4 State Entities under the Purview of DOAS
Emergency POs issued in September & October of Fiscal Year 2026

State Entities	PO Amount	Percent	PO Count
Department of Natural Resources	\$1,395,917	52%	4
Georgia Institute of Technology	\$368,265	14%	5
Valdosta State University	\$357,786	13%	1
Augusta University	\$221,590	8%	2

Audit Results

Using the requirements from the GPM and State law as guidance, the audit identified the following:

1. Of the 18 emergency POs under the purview of DOAS, 14 required an Emergency Justification Form. We were able to locate fourteen (100%) Emergency Justification Forms. Three POs had a value of less than \$25,000 and were not required to be classified as an emergency. Although not necessary, Emergency Justification Forms were attached to one of these POs.
2. There were eight POs totaling \$983,358 which fell under the Public Works/Construction exemption. Section 1.3.6.1 of the GPM refers to this exemption, which is only applicable to certain state entities such as the University System of Georgia. Since this type of procurement is exempt under the State Purchasing Act, the POs could have been classified as “CSN” construction. Consequently, no emergency justification form was needed.
3. One of the POs that had a value of less than \$25,000 could also have been coded as exempt as the NIGP codes used on the PO are classified as exempt.

Recommendation

1. For existing emergencies that span fiscal years and now require longer-term solutions and procurements to resolve, APOs and CUPOs are reminded that they should seek advice, guidance, and approval as applicable from SPD Policy via spdpolicy@doas.ga.gov before
 - a. encumbering additional funds on existing POs
 - b. creating new POs, or
 - c. extending a contractual relationship with a supplier
2. SPD Audits recommend that APOs and CUPOs, and state entity procurement staff be reminded of the requirements of Section 1.3.5 of the Georgia Procurement Manual before coding POs as “emergency.”
3. APOs and CUPOs should review the current (revised 07/01/2022) version of Form SPD-NI004 with procurement staff and business owners at their entity. They should also share the [Emergency Purchasing Policy Updates](#) webinar with the team and business owners involved in emergency procurements.
