

## HRD Meeting Chat Questions

March 18, 2026

Question		Answer	
I am unable to find Manage Payroll course even though it is part of my path		Please confirm your security role mapping. The first enrollments were Primary and Secondary who identified as Payroll Partner and Liaison. Everyone else will participate in ILT in April.	
Can we get a complete listing of the trainings so we can ensure we have the access needed and are aware of them ahead of time (if we haven't received an invitation).		The POC has access to training progress, you will not need to register for ILT we have enrolled everyone based on your role. Please have your Agency POC send an email to the NextGen mailbox.	
I attempted to complete Transactions, but instead of a training course, there was message for an in person training, but there were no dates to register. Then, I was prompted to an assessment. Am I missing an in-person training?		If you are a superuser, then managed transactions were delivered during a session, and you only needed to take the assessment.	
The schedule is in the resource library but I don't see any links to register for those virtual ILT courses. Where is that information?		Please visit <a href="https://doas.ga.gov/human-resources-administration/FAQ">https://doas.ga.gov/human-resources-administration/FAQ</a> .	
I am wondering if its because we are on Payroll Shared Services as the reason I cannot find Manage Payroll course in LMS? Will it prevent me from completing my path if I dont need it.		Payroll is Instructor Led Training (ILT) and in person with the exception of 1 date.	
Can we manually enter scores into GA@Work for FY2026 non-Peoplesoft/TeamGA performance evals after Go Live? Our agency uses our own internal evals, but we		No, there is currently not a process for non-GA@WORK agencies to enter performance review scores in GA@WORK.	

enter scores into Peoplesoft manually after our eval cycle concludes in June/July.			
So for the agencies that do not currently participate in the performance management module in TeamWorks, will we be able to utilize this functionality in GA@Work?		Yes. All agencies using GA@WORK can utilize the full talent management functionality.	

To view available trainings and their descriptions, please visit [GA@WORK Training Enrollment | State Accounting Office.](#)
