

Q&A 9.2 Upgrade

The new URL is: <https://fscm.teamworks.georgia.gov>

Will Favorites come over from 9.1 into 9.2? No, you will need to set up your Favorites in 9.2.

Will requisitions that have not been approved remain in the approval queue and transition to 9.2? Yes. All requisitions in the current 9.1 environment will be in 9.2.

Are ad hoc approvals submitted the same in 9.2 as in 9.1? Yes. There is no change in the adhoc approval process.

Are carts from assigned cart users in the virtual catalog pulled in the same way? Yes, the same process is followed; the Requestor will pull the cart into PeopleSoft to create a requisition.

Is there a way to approve more than one requisition at a time? No, it is recommended that each requisition be reviewed prior to approval.

Are there any changes in the PO state? No, nothing has changed in the Requisition to PO State process.

Are the steps for fixing the Denied requisition the same as in 9.1? Yes, there is no change in the Approval/Denied/Pushback actions.

What browsers can I use with 9.2? Internet Explorer, Mozilla Firefox, Chrome

Will my security access change? No, you will have the same access in 9.2 that you do in 9.1.

Will I still have my query favorites? Your favorite queries will not be deleted; they will still be available after go-live.

Can Requisitions be approved via a mobile device, i.e. cell phone? Yes. Log into PeopleSoft on your cell phone and tap on the Approvals tab.

Will the approver be able to edit a requisition initiated by someone else? Yes, there is no change in function from 9.1 to 9.2.

Will requisition line attachments still be available for viewing from the line item? Yes, you will still be able to view the line attachments just like in 9.1.

Is there a View Printable Version of the requisition? Yes, this is available from the Requisition Confirmation page or through the dropdown menu in Manage Requisitions.

If the Requisition Lifecycle still available on through Manage Requisitions? Yes, the Manage Requisitions functionality has not changed.

Can Mass Change in Requisitions be used to change chartfields? Yes.

Does the attachment file name still have a file name size limit? Yes.

How do you receive your items? Receipts in 9.2 are done the same way as in 9.1.

When creating a requisition and using the Add Request Document link, has anything changed with the wizards? No, the wizards are still the same as in 9.1.

With the new NOIA and NOA functionality in Strategic Sourcing, we no longer have to upload these to the GPR? Yes, that's correct.

Can the Supplier Contract Workbench be used to show all contracts assigned to a buyer? Yes.
